

LLORA — Patron Guide

Your Library's AI Assistant

LLORA (Lorma Library Online Research Assistant) is a virtual assistant available on the Lorma Colleges Library website. LLORA is here to help you find books, get answers about library services, and connect you with a librarian — anytime the library is open.

How to Open the Chat

Look for the **LLORA avatar button** in the bottom-right corner of the library website. Click it to open the chat window.

When you open the chat for the first time, you will be asked to identify yourself:

- **Student (Higher Ed)** — college students
- **Student (Basic Ed)** — junior high / senior high students
- **Faculty / Staff** — teachers and university employees
- **Alumni** — graduates of Lorma Colleges
- **Visitor** — guests and walk-in patrons

Select your patron type and add any relevant details (e.g. your course and year level), then click **Start Chat**.

What LLORA Can Help You With

Finding Books

Ask LLORA to search the library catalog for you. You can search by:

- **Title** — "Do you have Harry Potter?"
- **Author** — "Books by Jose Rizal"
- **Subject** — "I need books about computer networking"
- **Course material** — "Textbooks for BSIT students"

LLORA will show you a list of matching books with links to view each one in the catalog.

Example questions:

"Find me books about data structures" "Do you have any books by Stephen Hawking?" "I need a reference book for calculus"

Library Hours and Location

Ask LLORA about library schedules and where to find us.

Example questions:

"What are the library hours?" "Is the library open on Saturday?" "Where is the library located?"

Policies and Borrowing Rules

Ask about borrowing limits, loan periods, renewals, and membership.

Example questions:

"How many books can I borrow?" "How long can I keep a book?" "Can I renew my borrowed books?"
"How do I get a library card?"

Fines and Fees

Ask about overdue fines and other charges.

Example questions:

"What is the fine for overdue books?" "How much is the overdue fee per day?"

Printing Services

Ask about printing rates and how to print documents at the library.

Example questions:

"How much does printing cost?" "What are the printing rates?" "How do I print a document at the library?"

Contact Information

Ask for the library's email address or contact details.

Example questions:

"What is the library's email address?" "How do I contact the library?"

Quick Reply Buttons

When you open the chat, you will see a row of **quick reply buttons** at the bottom of the chat window. These are shortcuts to the most common questions — just click one to get an instant answer without typing.

Talking to a Librarian

If LLORA cannot answer your question, or if you prefer to speak with a real person, click the **Librarian** button in the chat header.

What happens next:

1. LLORA will notify the available librarians immediately
2. You will see: *"I've notified a librarian — they'll join this chat shortly!"*
3. A librarian will join the chat and respond directly
4. When the librarian is done, they will end the chat and you will be returned to LLORA

Note: The Librarian button is only available during library opening hours. It is automatically disabled 30 minutes before closing time.

Cancelling a librarian request

If you change your mind before a librarian joins, click **Cancel Request** to go back to chatting with LLORA.

Rating your experience

After a librarian ends the chat, you will be asked to rate your experience on a scale of 1 to 4. Your feedback helps us improve the service.

Tips for Better Results

- **Be specific** — "Books about Python programming for beginners" works better than "programming books"
 - **Try different words** — if LLORA doesn't find what you need, try rephrasing your question
 - **Use the quick reply buttons** — for common questions about hours, fines, and policies, the buttons give instant answers
 - **Ask follow-up questions** — LLORA remembers your conversation, so you can say "tell me more about the first one" after a book search
-

What LLORA Cannot Help With

LLORA is designed specifically for library-related topics. It will politely decline to answer questions about:

- General knowledge or trivia
- Homework answers or math problems
- Current events or news
- Anything unrelated to the library or school

For those topics, please use a general search engine or ask your teacher.

Privacy

Your chat session is anonymous. You are identified only by a randomly generated name (like "Blue Owl 42") — your real name is never stored. The patron type you select at the start is only shared with librarians if you request a live chat.

Need More Help?

If you have a question LLORA cannot answer, use the **Librarian** button to connect with a real librarian, or visit the library in person during opening hours.
